PROFESSIONAL EXPERIENCE

ICE HUTS TECHNOLOGIES.

Dec 2024 – Present

Software Development Engineer

Jaipur, Rajasthan

- **Flow-Versioning Implementation:** Designed a versioning system for workflows, improving reliability and reducing rollback errors.
- **HR Systems Integration:** Integrated Zoho People, UKG Pro, and Paycor, ensuring seamless synchronization of employee records and also automated user onboarding tickets through Zendesk.
- **Reconciliation Reports:** Developed event-processing reports (HTML, PDF, JSON) microservice, streamlining analysis and reducing manual effort.
- **Security Enhancements:** Led security initiatives, mitigating vulnerabilities (including XSS) and strengthening user account protection.
- **Product Health check Automation:** Built UI/API health check scripts, improving issue detection and reducing system downtime.
- **ServiceNow App Development:** Developed a request access feature, optimizing approval workflows and accelerating request processing.
- **Azure AD Integration:** Integrated Azure AD, group management and Exchange Online support, enhanced authentication and collaboration.
- **Azure Function Integration:** Implemented Azure Functions via Service Bus for seamless cloud automation and scalability.
